**NEVADANS AGREE: IT'S TIME TO PASS MARKETPLACE FAIRNESS**  
*New Poll Finds Strong Support for Federal Legislation in the Silver State*

**WASHINGTON, September 18, 2014** — Today the International Council of Shopping Centers (ICSC) released the results of a Nevada-specific poll that shows that roughly two in three Nevadans support legislation requiring sales tax collection at the time of purchase.

“A significant majority of Nevadans support federal legislation and with precious few legislative days left in 2014 it is time for Congress to make Marketplace Fairness a reality this year,” said Michael P. Kercheval, president and CEO of ICSC. “Nevadans from all walks of life and across the political spectrum overwhelmingly agree that the long-term economic health of their communities depend on a level playing field for all businesses.”

The poll identified a number of key findings, including:

- 64% of Nevadans support federal legislation that would require online-only sellers to collect sales tax at the time of purchase.
- 75% of Nevadans think it would be easier to collect sales tax from online-only vendors at the time of purchase.
- 97% of Nevadans say local retailers are important to their community’s economic health.

“It is abundantly clear that when Nevadans understand their current tax liability for online purchases they overwhelmingly support federal legislation that streamlines and simplifies the sales tax collection process,” said Betsy Laird, senior vice president of Global Public Policy for ICSC.

ICSC has promoted eFairness for over a decade, advocating that a “sale is a sale” regardless of whether the purchase takes place on Main Street, at shopping centers, or over the Internet.
